WORK DETAILS

Full-Stack CMS Toko Kelontong

- Designing the ERD
- Developing Back-End with PHP - Lumen
- Developing Front-End with VueJS
- Creating & Integrating API
- Bug testing & maintenance

Full-Stack Aroma POS

- Designing the ERD
- Developing Back-End with PHP - Lumen
- Developing Front-End with VueJS
- Creating & Integrating API
- Bug testing & maintenance

Full-Stack GetFit

- Designing the ERD
- Developing Back-End with PHP - Lumen
- Developing Front-End with VueJS
- Creating & Integrating API
- Bug testing & maintenance

Full-Stack Siatma & Simka

- Designing the ERD
- Developing Back-End with PHP - Lumen
- Developing Front-End with React-Native
- Creating & Integrating API
- Bug testing & maintenance

Front-End Boyolali Apps

- Collaborating with Designers & Back-End Team
- Developing UI/UX according to Design with React-Native
- Integrating API
- Bug testing & maintenance

Front-End Retribusi Pasar (SUNMI MPOS)

- Collaborating with Designers & Back-End Team
- Developing UI/UX according to Design with React-Native
- Integrating API
- Bug testing & maintenance

Front-End Forstok Chat

- Collaborating with Designers & Back-End Team
- Developing UI/UX according to Design with ReactJS
- Finished up with Electron
- Integrating API
- Bug testing & maintenance

Front-End Saveduit - Bank Jateng

- Collaborating with Designers & Back-End Team
- Developing UI/UX according to Design
- Developing Website with ReactJS
- Developing Mobile Apps with React-Native
- Integrating API for both Apps
- Bug testing & maintenance

Front-End JakOne Agen (SUNMI MPOS)

- Collaborating with Designers & Back-End Team
- Developing UI/UX according to Design with React-Native
- Handling Payment with QRIS
- Handling Payment with JakCard (E-Money)
- Handling Payment with GPN Cards
- Integrating API
- Bug testing & maintenance

Front-End E-Ticketing

- Collaborating with Designers & Back-End Team
- Developing UI/UX according to Design with React-Native
- Handling Payment with QRIS
- Handling Payment with JakCard (E-Money)
- Handling Payment with GPN Cards
- Integrating API
- Bug testing & maintenance
- Building 4 various similar Mobile Apps with minor to major difference

Designing the ERD

Developing both frontend and backend with Laravel

Creating & Integrating API

Bug testing and maintenance

The screenshot shows the 'Produk Trending' section of the Toko Aroma dashboard. On the left, there's a sidebar with various menu items like Beranda, Manajemen Pengguna, Kontak, Produk, Pembelian, Jual, Transfer Stok, Penyesuaian Stok, Pengeluaran, log.log, Laporan, Laporan Untung / Rugi, Jual dan Beli, Laporan Pajak, Pemasok & Laporan Pelanggan, Laporan Stok, Produk Trending, Laporan Penyesuaian Stok, Laporan Biaya, and Laporan Register.

The main area has a title 'Produk Trending' with a 'Filters' section containing dropdowns for Lokasi Bisnis (Semua lokasi), Category (All), Sub Category (All), Brand (All), Unit (All), Date range (Select a date range), and No. of products (5). A blue button labeled 'Terapkan Saringan' (Apply Filter) is at the bottom right of the filter section.

Below the filters is a chart titled 'Produk Tren Teratas' (Top Selling Products) showing the total units sold for four items:

Product	Total units terjual
barang kilo (Kg)	20
malboro putih (Pc(s))	5
Indomie (Pc(s))	2
Beras Rojolele (Kg)	1

The background of the login screen features a repeating pattern of various bakery and coffee items like croissants, muffins, and cups. In the center, there's a white diamond-shaped logo with a pink ribbon-like design. Below it is a 'LOGIN' button. A dark overlay covers the bottom half of the screen, containing a form with fields for 'Email' and 'Password', and a pink 'LOGIN' button at the bottom.

The screenshot shows the Getfit website's homepage and a membership page. The homepage features a large banner with a black and white photo of a person stretching, with the text "LET'S JOIN A MEMBER GET YOUR CONFIDENCE" and a call-to-action button. The membership page shows three plan options: "15K-30K", "150K-170K", and "1.500K-1.650K". Each plan includes a summary, benefits, and a "JOIN NOW" button.

MEMBERSHIP

PLAN	PRICE	PERIOD	BENEFITS

/super penyetan

Designing the ERD and template

Developing both backend and frontend with Lumen

Creating & Integrating API

Bug testing and maintenance

The image shows two screenshots of the Super Penyetan application. The top screenshot is the login screen, featuring a dark background with various Indonesian spices like cinnamon sticks, nutmeg, star anise, and a yellow chili pepper arranged around the text. The login form includes fields for Email and Password, a Log In button, and social media sharing links for Twitter, Facebook, and Pinterest. The bottom screenshot shows the transaction dashboard. It has a red header bar with the application name and a user profile icon. The main content area is divided into sections: a sidebar with navigation links (Transaction, Data Master, Users, Roles, Permissions, Global Settings, Restock Barang, Printer Setting), a list of food items with small images, and a detailed transaction view on the right. The transaction view includes a 'List Item' table with columns for Desripsi, Qty, Price, and Subtotal, and buttons for Cash and Credit.

Creating & Integrating API

Bug testing and maintenance

The screenshot shows the 'Items' list page of the SuperPenyetan application. The left sidebar contains navigation links for Transaction, Data Master (List Menu Category, List Menu, Harga Menu, List Member), Users, Roles, Permissions, Global Settings, Restock Barang, and Printer Setting. The main content area has a red header bar with 'Logout' and a breadcrumb path 'Admin > Items > List'. Below is a table with columns: Nama, Alias, Gambar, Item Category, Jumlah, and Actions. The table lists various food items with their counts and edit/delete buttons.

Nama	Alias	Gambar	Item Category	Jumlah	Actions
Nasi Putih	NP		Makanan	17	<button>Edit</button> <button>Delete</button>
Pecel Lele	PLele		Makanan	17	<button>Edit</button> <button>Delete</button>
3T(Telur, Tahu, Tempe)	3T		Makanan	19	<button>Edit</button> <button>Delete</button>
4T(3T + Terong)	4T		Makanan	0	<button>Edit</button> <button>Delete</button>
Ayam Penyet	AP		Makanan	0	<button>Edit</button> <button>Delete</button>
Patin Penyet	PP		Makanan	0	<button>Edit</button> <button>Delete</button>
Bandeng Penyet	BP		Makanan	0	<button>Edit</button> <button>Delete</button>
Dorang Penyet	DP		Makanan	0	<button>Edit</button> <button>Delete</button>
Kerupu Penyet	Kr.P		Makanan	0	<button>Edit</button> <button>Delete</button>
Kakap Penyet	Kk.P		Makanan	0	<button>Edit</button> <button>Delete</button>

/SAVEDUIT

The image displays the Saveduit mobile application's user interface. At the top, there is a dark header bar with the 'SAVEDUIT' logo, followed by a navigation menu with links to 'Program', 'Get Reward', 'Blog', 'Profile', 'Log Out', and 'Sancal Cien'. Below the header, there are several informational cards and promotional banners. One card on the left explains how to get rewards online. Another card shows terms and conditions with icons for a bank account, email, and profile. A third card, 'Isi Data Profil', shows a step 1 icon. A large central banner promotes getting rewards from locking up a balance. To the right, there is a card for placing a reward order and another explaining why to use Saveduit. At the bottom, there are two more cards: one about safe shopping and savings, and another about fees.
